

EVENT ANNOUNCEMENT

2026 Youth Cyber Safety Hackathon

Official event announcement from the Future Digital Safety Institute

Organizer: Future Digital Safety Institute

Event: 2026 Youth Cyber Safety Hackathon

Date: August 20, 2026, 09:00-18:00

Venue: Hanbit Startup Center, 3rd Floor

Purpose

The Future Digital Safety Institute will host the 2026 Youth Cyber Safety Hackathon so that students can solve practical security problems through teamwork.

Each team will select one challenge: phishing detection, secure authentication, or privacy protection, and build a working prototype.

Participation and Deliverables

Teams of two to four high school or university students may apply by August 5, 2026.

Every team must submit a problem statement, a working prototype, and a five-minute presentation. The top team will receive the Future Digital Safety Institute Award.

This announcement is the primary event definition referenced by the participation request, training plan, mentoring guide, and results report.

Demo note: The title, organization, event name, and sentence-level evidence in this file are designed for relationship graph demonstrations.
