

RESULTS REPORT

2026 Youth Cyber Safety Hackathon Results

Event outcomes and follow-up actions

Organizer: Future Digital Safety Institute

Event: 2026 Youth Cyber Safety Hackathon

Event Date: August 20, 2026

Participation: 18 teams, 62 students

Key Results

The Future Digital Safety Institute completed the 2026 Youth Cyber Safety Hackathon at Hanbit Startup Center on August 20, 2026.

Eighteen teams presented phishing detection, secure authentication, and privacy protection prototypes. Every team submitted a problem statement and demonstration video.

Follow-Up

The winning phishing detection prototype will continue in the Future Digital Safety Institute follow-up mentoring program beginning in September 2026.

The operations team concluded that pre-hackathon training and onsite mentoring improved prototype quality.

This results report is a continuation of the event announced in 01_Hackathon_Announcement.pdf.
